Short Product Description	FarmPass is Coopbank's digital agricultural marketplace that connects farmers, cooperatives, buyers, and input and service providers within a single ecosystem. For farmers, FarmPass provides digital access to markets, cooperatives, and service providers, enabling secure payments, transaction records, and access to credit based on marketplace activity. For cooperatives, offtaker and aggregators, it supports structured aggregation, digital collections and payments, transparent records, and improved access to financing. For buyers, FarmPass offers reliable access to aggregated supply, efficient digital payments, and traceable transactions. For input and service providers, it serves as a digital channel to reach farmers at scale, manage orders, receive payments digitally, and maintain operational records. Overall, FarmPass enables efficient, transparent, and bankable agricultural trade for all participants across the value chain.
Eligibility Criteria	- Anchor companies, cooperatives, buyers, and input/service providers active in agricultural value chains - Farmers participate via registered anchor companies or cooperatives on the FarmPass marketplace - Compliant with Coopbank's KYC and onboarding requirements - Adhere to bank terms, conditions, and regulations

	Must be engaged in legal crops and agricultural products recognized under Ethiopian law
